

Series 11

BIG QUESTIONS ... BIG IDEAS ... ALL OVER THE MAP

Thursday afternoons 1:30 – 3:30 pm

January 19 – March 9, 2017

Art Gallery of Burlington, 1333 Lakeshore Road, Burlington

Curiosity is one of the hallmarks of human beings.

We have all had questions about the world we live in that often come 'out of the blue' and go 'all over the map'.

In this series, just because we are curious, we will search for answers on a variety of topics.

Note: We reserve the right to substitute a speaker.

January 19

Mathematics and the Beauty of Mosaics in the Alhambra Palace
Dr. Miroslav Lovric, Professor, Department of Mathematics and Statistics, McMaster University

January 26

Demystifying Monetary and Fiscal Policy
Dr. Bill Scarth, Professor (retired), Department of Economics, McMaster University

February 2

Complexity in the Universe: From Simple Beginnings to Where We Are Now
Dr. Laura Parker, Associate Professor, Department of Physics and Astronomy, McMaster University

February 9

Is Curiosity Alive in the 21st Century?
Dr. Michael Reid, Lecturer, Department of Astronomy and Astrophysics & Dunlap Institute of Astronomy and Astrophysics, University of Toronto

February 16

Leading Through Change
Rob MacIsaac, President and CEO, Hamilton Health Sciences

February 23

What Should the Public Know About Science?
Ivan Semeniuk, Science Reporter, Globe and Mail

March 2

Defining Religion and Culture: Meaning and Relationship
Dr. Meena Sharify-Funk, Associate Professor and Chair, Department of Religion and Culture, Wilfrid Laurier University

March 9

Climate Change in Canada:
What Happens When the Weather Is Out of Control and Ice Caps Melt?
Dr. Liette Vasseur, Professor, Department of Biological Sciences, Brock University
